SUBJECT: Personal History Statement for SCI Cases

X Sec 8
X Section 19
010/81

Reference is made to the draft of a proposed Personal History Statement (PHS) for use by individuals nominated in industry for SCI access and requiring DCID 1/14 coverage.

Section 8, question 4--It is suggested that "must" in the second sentence of this question be changed to "should". This change is suggested due to the fact that many young adults have not worked long enough to establish either a savings or checking account with a financial institution.

It is recommended that the proposed PHS draft be referred to legal counsel if this has not already been accomplished.
